SKILL SET

Design Methods

Affinity diagramming
Competitive analysis
Conceptual modeling
Interviewing and Survey
Persona development
Wireframing
Prototyping
Usability testing
Heuristic evaluation

Tools

Adobe Creative Suite
Unity
Sublime / Atom
GitHub
Maya

Development

HTML, CSS (SASS), JavaScript
Java, C#
AngularJS, jQuery
Webpack, Gulp, Git

Languages

Chinese (mother tongue)
English (fluent)
French (intermediate)

WORK EXPERIENCE

Co-founder, Designer and Developer

TranscenTec Co. Ltd | Chongqing, China | Feb. 2016 – Jul. 2017

- Led and coordinated R&D during incubation phase of project Tran3D, an O2O platform that distributes 3D printing services.
- Designed and shipped project online. Designer work involved problem definition, interviewing, persona development, sketching, wireframing, prototyping, visual specs, animations and usability testing. Developer work included writing reusable CSS, building system via AngularJS and three.js, designing API endpoints and modularizing with webpack.

UX/UI/Visual Designer and Front-end Developer

Guhao Dental Laboratory | Chongqing, China | Apr. 2016 – Jun. 2016

- Bootstrapped new brand identity that incorporates company's new spirit. Works included logo, name card and product photography.
- Guided the public website from start via analysis, conception, design, development and testing to final launch.

Researcher and Game Designer

Games Research Lab in McGill | Montreal, Canada | Sep. 2013 – May. 2015

- Researched into Procedural Content Generation (PCG) in stealth game context. Applied quantitative metrics to demonstrate how different parametrizations can be used to control level difficulty for better player experience.
- Created simulation tool and conducted usability tests for data analysis.

EDUCATION

McGill University, M.Sc. in Computer Science

Montreal, Quebec, Canada | Sep. 2012 – May. 2015

Xiamen University, B.Eng. in Digital Media Art

Xiamen, Fujian, China | Sep. 2008 – Jul. 2012
